

- 1 **REVIEW – Genetic factors underlying differential blood platelet sensitivity to inhibitors.** *Marcin Rozalski, Magdalena Boncler, Bogusława Luzak, Cezary Watala*
- 14 **REVIEW – L-arginine and cardiovascular system.** *Dorota Cylwik, Andrzej Mogielnicki, Włodzimierz Buczko*
- 23 **REVIEW – Drug-induced myopathies. An overview of the possible mechanisms.** *Jacek Owczarek, Magdalena Jasińska, Daria Orszulak-Michalak*
- 35 **Role of serotonin (5-HT)₂ receptors in cocaine self-administration and seeking behavior in rats.** *Małgorzata Filip*
- 47 **Effect of NMDA receptor antagonists on behavioral impairment induced by chronic treatment with dexamethasone.** *Zofia Danilczuk, Grażyna Ossowska, Tomasz Łupina, Katarzyna Cieślik, Iwona Żebrowska-Łupina*
- 55 **Participation of adenosine system in the ketamine-induced motor activity in mice.** *Marcin Mandryk, Sylwia Fidecka, Ewa Poleszak, Danuta Malec*
- 61 **Effect of the combined administration of ethanol and acamprosate on rabbit EEG.** *Bogusława Pietrzak, Elżbieta Czarnicka*
- 70 **Protective effect of catechin on ischemia-reperfusion-induced renal injury in rats.** *Devinder Singh, Vikas Chander, Kanwaljit Chopra*
- 77 **Synthesis of 6-O-acyl-L-ascorbic acid-2-O-phosphates and study of their antioxidant effects in 95-D cells.** *Zhongyan Tao, Yuhong Ren, Wangyu Tong, Dongzhi Wei*
- 84 **Effect of rutin on total antioxidant status of rats exposed to cigarette smoke.** *Ewa Florek, Ewa Ignatowicz, Jagna Wrzosek, Wojciech Piekoszewski*
- 90 **Antioxidant effect of *Aloe vera* gel extract in streptozotocin-induced diabetes in rats.** *Subbiah Rajasekaran, Karuran Sivagnanam, Sorimuthu Subramanian*
- 97 **Inhibitory effect of albendazole and its metabolites on cytochromes P450 activities in rat and mouflon *in vitro*.** *Vendula Baliharová, Jakub Velík, Kateřina Fimanová, Jiří Lamka, Barbora Szotáková, Michal Šavlík, Lenka Skálová*
- 107 **Effect of kaempferol on the production and gene expression of monocyte chemoattractant protein-1 in J774.2 macrophages.** *Jan Kowalski, Arkadiusz Samojedny, Monika Paul, Grażyna Pietsz, Tadeusz Wilczok*
- 113 **Nitric oxide effect on 5-hydroxytryptamine-induced vasoconstrictions of isolated smooth muscle.** *Jacques Y. Datté, Paul A. Yapo, Michel A. Offoumou*
- SHORT COMMUNICATIONS
- 121 **Trans-4-aminocrotonic acid (TACA), a potent agonist of GABA_A and GABA_C receptors, shows a proconvulsant action in the electroconvulsive threshold test in mice.** *Kinga K. Borowicz, Marek Zadrozniak, Stanisław J. Czuczwar*
- 124 **Prophylactic effect of lithium in bipolar affective illness may be related to serotonin transporter genotype.** *Janusz K. Rybakowski, Aleksandra Suwalska, Piotr M. Czerski, Monika Dmitrzak-Weglarz, Anna Leszczynska-Rodziewicz, Joanna Hauser*
- 128 **Effects of thiopental and propofol on heart rate variability during fentanyl-based induction of general anesthesia.** *Lesya Riznyk, Magdalena Fijałkowska, Krzysztof Przesmycki*
- 135 **Antithrombotic effect of captopril and enalapril in old rats.** *Ewa Chabielska, Andrzej Mogielnicki, Karol Kramkowski, Włodzimierz Buczko*
