

- 483 REVIEW – **Statins: a new insight into their mechanisms of action and consequent pleiotropic effects.** Magdalena Jasińska, Jacek Owczarek, Daria Orszulak-Michalak
- 500 REVIEW – **Growth hormone therapy in children and adults.** Robert Krysiak, Anna Gdula-Dymek, Bogusław Okopień
- 517 **Modulatory role of 5-HT_{1B} receptors in the discriminative signal of amphetamine in the conditioned taste aversion paradigm.** Florencio Miranda, Alma Sandoval-Sánchez, Laura N. Cedillo, Juan C. Jiménez, Patricia Millán-Mejía, David N. Velázquez-Martínez
- 525 **Chronic imipramine treatment reduces inhibitory properties of group II mGlu receptors without affecting their density or affinity.** Agnieszka Palucha, Piotr Brański, Kinga Klak, Magdalena Sowa
- 531 **Effects of some new antiepileptic drugs and progabide on glucocorticoid receptor-mediated gene transcription in LMCAT cells.** Agnieszka Basta-Kaim, Bogusława Budziszewska, Monika Leśkiewicz, Magdalena Regulska, Magdalena Otczyk, Marta Kubera, Grzegorz Jagła, Wojciech Nowak, Jarogniew J. Łuszczki, Stanisław J. Czuczwar, Władysław Lasoń
- 538 **Role of polymorphonuclear leukocyte infiltration in amiodarone's anti-inflammatory effect mechanism.** Gunnur Ozbakis-Dengiz, Zekai Halici, Erol Akpınar, Elif Cadirci, Dilek Bilici, Nesrin Gursan
- 545 **Prostacyclin, but not nitric oxide, is the major mediator of acetylcholine-induced vasodilatation in the isolated mouse heart.** Paweł Gwóźdź, Łukasz Drelicharz, Valery I. Kozlovski, Stefan Chlopicki
- 553 **Nephroprotective effect of cystathionine is due to its diverse action on the kidney and Ehrlich ascites tumor cells.** Inga Kwiecień, Maria Sokołowska, Lidia Włodek
- 565 **Antiproliferative activity of various *Uncaria tomentosa* preparations on HL-60 promyelocytic leukemia cells.** Radosław Pilarski, Magdalena Poczekaj-Kostrzewska, Danuta Ciesiołka, Krzysztof Szyfter, Krzysztof Gulewicz
- 573 **Synergistic protective effect of picroside II and NGF on PC12 cells against oxidative stress induced by H₂O₂.** Jian-wen Liu, You-jun Yu, Pei-yong Zheng, Xiao-dong Zhang, Ting Li, Yan Cao, Ming-chuan Guo
- 580 **Some drugs inhibit *in vitro* hydratase and esterase activities of human carbonic anhydrase-I and II.** Deniz Ekinci, Şükrü Beydemir, Zuhâl Alim

SHORT COMMUNICATIONS

- 588 **Effect of repeated co-treatment with imipramine and metyrapone on the behavioral reactivity of the central serotonin, dopamine and α_1 -adrenergic systems in rats.** Zofia Rogóż
- 595 **Activation of the NMDA/glutamate receptor complex antagonizes the NMDA antagonist-induced antidepressant-like effects in the forced swim test.** Ewa Poleszak, Piotr Właź, Andrzej Wróbel, Małgorzata Dybała, Magdalena Sowa, Sylwia Fidecka, Andrzej Pilc, Gabriel Nowak
- 601 **Nitric oxide modulates the amphetamine effect on [³H]glucose uptake in the brain of rats prenatally exposed to lead.** Przemysław Nowak, Marek Swoboda, Ryszard Szkilnik, Jadwiga Joško, Łukasz Noras, Adam Kwieciński, Katarzyna Sawczuk, Ewa Herba, Dorota Pojda-Wilczek, Richard M. Kostrzewa, Ryszard Brus
- 606 **The activity of cytochrome P450 CYP2B in rat liver during neuroleptic treatment.** Anna Haduch, Jacek Wójcikowski, Władysława A. Daniel
- 613 **Effect of gas phase and particulate phase of cigarette smoke on salivary antioxidants. What can be the role of vitamin C and pyridoxine?** Maria Greabu, Maurizio Battino, Alexandra Totan, Maria Mohora, Niculina Mitrea, Cosmin Totan, Tudor Spinu, Andreea Didilescu
- 619 **Note to Contributors**
